# EVERYwear

**A brand-new, high-quality clothing collection. Modern, comfortable and practical garments that are perfect for both work and leisure.**

Our brand-new clothing collection, EveryWear, is, as the name suggests, the place where workwear, sportswear and leisurewear meet. Modern, practical and comfortable garments for everyday hectic lifestyles. Our aim has always been to feel comfortable performing everyday tasks throughout the working day.

## **Mix & Match**

The EveryWear collection consists of a selection of uppers and base layers with a modern look and fresh colours. It lets you choose any combination you like and mix and match to find your favourite. There are several uppers to choose from, some with long sleeves, some with short sleeves, some with a hood, some without a hood, take your pick. The trousers also come in several different designs and lots of different colours. Browse the entire collection and find your favourite look.

## **4-way stretch**

It was very important for us to select the right fabrics for our new collection. Amongst other things, we took into account the weight, texture, structure and properties. The result is the best combination of 4-way stretch for the optimal movement and abrasion resistance. Our 4-way stretch is light-weight and therefore feels light on the body, which also helps ensure an ergonomic fit. This type of stretch material will also retain heat better than other more traditional synthetic materials. With Wenaas EveryWear 4-way stretch, you can feel confident the garments will be both comfortable and durable all day long.

Inner adjustment straps in the waist, pockets on hips, and mobile phone pocket at lower back with zip. Suitable for work situations in which snug-fitting clothes are advantageous. Can also be used for exercise.

**COLOR** 10 Black.  
**SIZE** XS-XXXL  
**MATERIAL** 4-way stretch, 82 % polyamide, 18 % elastane, 22 g/m². Reinforcement: 94 % nylon, 6 % elastane, 255 g/m².

# DESIGNED FOR COMFORT

**Nothing is more important to Wenaas than protecting people at work.  
But work clothes are also about comfort - about feeling good and looking good.**

That is why we have put together a designer range comprising, amongst other things, short-sleeved and long-sleeved T-shirts, technical clothing, hooded tops, woollen jumpers, hats and caps, to be used singly or combined with traditional workwear. The garments are design-appropriate, durable and of the high-quality you are used to. The quality you expect from Wenaas. This means, amongst other things, reinforced seams, hidden zips and stretch fabrics that follow the body's natural movements. With a precise fit and a huge selection of sizes in-stock for both women and men, we have something to suit everyone. Most of the garments also come in a variety of colours so that every company can find its identity.

A company's individual identity can be accentuated by customised designer garments. With large surfaces for embroidering or attaching logos and messages, a company can set its business apart, whether this involves company profiling in the workplace or at customer events, having a presence at trade fairs, or emphasising cohesion at internal gatherings.
